Science Knowledge Organiser

Seasonal Changes	Year 2	Autumn 2

Each year we experience these **four seasons.**

The seasons are caused because the **Earth is spinning on a tilt.**

Sticky Knowledge

Spring

Spring is usually in the months **March, April and May.** In spring the days start to get longer and a bit warmer. New plants grow and the **trees grow their leaves back.**

Many animals **have babies** such as birds, cows, sheep and ducks.

Summer

Summer is usually in the months **June, July** and **August.** In summer the **days are at their longest** and the **weather is the warmest.**

The trees are **full of leaves.**

Autumn

Autumn is usually in the months **September, October** and **November.** In autumn the amount of time it is light becomes less which means it gets **darker earlier.** The leaves start to **change colour** and **fall off some of the trees.**

Winter

Winter is usually in the months **December, January** and **February.** In winter we have colder weather, **sometimes snow** and frost. **Some trees** have no leaves and the amount of time it is light during the **day is at its shortest.**
